INEO RELOCATION TECHNOLOGIES MERGES WITH RELOCATION TAXES, LLC.

Merger positions Ineo Relocation Technologies and Relocation Taxes for strategic growth of its domestic, international and government business.

Centennial, CO (PR WEB) January 25, 2011 - - Ineo Relocation Technologies, the leading provider of enterprise level relocation software and expense management services, announced today the merger with Relocation Taxes, LLC the leading provider of federal and multi-state personal income tax preparation, gross-up audits/tax reconciliations and related relocation tax and consulting services for individuals, corporations and third party providers.

This merger will reunite industry innovators Robert F. Sherrill, founder of RMS and co-founder of Ineo, with David S. Oltman, co-founder of The Hessel Group and Relocation Taxes, LLC. Together they possess over 50 years of industry experience and were each instrumental in the origination of technology for the relocation gross-up and home sale accounting process, with hands on experience dating back to the early 1980's.

"This strategic merger is one that will enhance our private and public sector business as well as broaden our global operations. We will continue to offer our clients an ever expanding platform of additional professional resources each vital for compliant navigation in today's complex realm of relocation", said Robert F. Sherrill, Chairman and Ineo Relocation Technologies Co-Founder.

"This merger allows us to bring together two of the most experienced providers in the relocation services industry," said Jason Arnold, Ineo Relocation Technologies President and COO. "The assembly of such well known and experienced management talent continues to demonstrate our commitment to bring the best and brightest in the industry within The Ineo Family, offering our clients the most extensive array of innovative technology and tax services".

"Culturally this is a great fit, as both firms take immense pride in their extensive industry experience as well as their commitment to delivering superior customer service," said David S. Oltman, CRP, newly appointed Ineo Chief Compliance Officer and Relocation Taxes co-founder.

Debbie Gioiella, Relocation Taxes, LLC co-founder, has been Relocation Taxes Director of operations since 1998. She will continue to lead and expand Relocation Taxes operations and will be responsible for all client relationship functions. Debbie believes that offering unparalleled customer service is the key to success. Her broad knowledge in taxation, relocation, and association with a diverse client base has given her the expertise to advise clients, keep them compliant and guide them through the demands placed upon them through the ever changing economic and compliance environments.

"We look forward to working together to make this a smooth transition for both our employees and our clients. "We are truly excited to offer the industry such a broad array of proven products and services" said Gioiella.

About Ineo Relocation Technologies

At INEO, our business is relocation software, expense management and tax services that are instrumental in providing our customers focused solutions that meet their specific business needs. Our history in developing relocation solutions exceeds 27 years. It is our experience and unmatched expertise that positions us as the industry leader in relocation software development and tax services.

Our name, Ineo, is Latin for the term 'to begin'. The name is indicative that, although rich in history and experience, the company is commencing on a whole new way of doing business. We are committed to our customers with an approach to doing business where Exceptional Service is the norm.

About Relocation Taxes

Relocation Taxes, LLC provides personal income tax preparation, gross-up audits/tax reconciliations and related services for individuals being relocated or moving within both the United States and around the world. ReloTax also provides keynote speeches with regards to corporate and government relocation tax and payroll issues for both local and national conferences.

Experienced tax professionals prepare all tax returns in complete confidence. Each return goes through a review process to insure quality and accuracy. Special attention is given to multi-state (old & new, live & work) taxation issues along with gross-ups including tax equalization and tax protection.
